## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/12/2008 has been entered.

In view of applicants' amendment to claims 1, 2, 6, 8, 11 and 13 to further distinguish over the prior art applied, and applicants' assertion that more than variations are needed to arrive at instant compounds from the teachings of the prior art, the 103 rejection over Tanimoto is deemed as obviated.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 8 is indefinite for more than one reason. Based on the preamble, claim 8 appears to be an intermediate compound claim. However, the middle of the claim after X definition recites a process for making a compound which is not defined in the claim.

Thus, it is not clear whether the claim is a compound claim or a process claim. In addition, if it is a process claim it would appear to be a duplicate of claim 7.

In addition, claim 8 recites a variable group A for which there is no definition in the claim. As recited the scope and the structural make-up of the compound to be made or the intermediate remains unknown.

If the claim is rewritten as dependent claim to accommodate a process and define A, it should be noted that the scope of  $R^2$  is outside the scope of claim 1.

### ***Allowable Subject Matter***

Claims 1-7 and 9-16 are allowed.
